

Today EKLC Collects Special Offering for ELCA Malaria Campaign

The ELCA Malaria Campaign is starting work in Uganda – but help is needed. In Uganda, thousands of children die each year from malaria – a preventable and curable disease. The entire population is at risk of malaria, but less than 50 percent are protected by preventable measures like insect-treated bed nets and mosquito spraying. Hospitalization and deaths from malaria have increased in recent years. **The time to help is now.** World Malaria Day is April 25 and we are turning this day into a special week – focusing on the work of the ELCA Malaria Campaign in Uganda. Our goal is to raise \$250,000. This would be enough to jump-start malaria programming in Uganda. Imagine the number of lives saved and the impact we can have if we all come together on one Sunday for one cause. Join millions of people around the world and thousands of ELCA members across the United States in the fight against malaria on Sunday, **April 28.**
